

Hank Lewis
Buildrite Construction, Corporation
1344 East Cobb Drive, Suite 6
Marietta, GA 30068

Dear Hank;

Appalachian Technical College is very pleased with the renovation of our Woodstock Campus classrooms and labs. Everybody associated with the renovation has had numerous compliments from the community and students concerning the facilities beauty.

The project was completed as scheduled and meets the needs of our students, faculty and community. Buildrite Construction did a great job. I was particularly pleased that the workers kept the area clean and never seemed to interfere with other campus activities. Buildrite's success on this project did not surprise anybody associated with Appalachian Technical College. Your work renovating our Cosmetology Department, in Jasper, was equally successful.

I feel confident in saying Appalachian Technical College is completely satisfied with the work you have done. The students and faculty have embraced the new facilities as a part of the College.

James A. Looney
Director of Facilities & Security
Woodstock Campus Director
